EDUCATION

Virginia Commonwealth University (VCU) Richmond, VA
B.S. Computer Science, **May 2026**
GPA: 3.3 | Dean's List: Fall 2023

Old Dominion University (ODU) Norfolk, VA
M.S. Cyber-Security, **August 2026**

TECHNICAL SKILLS

Programming: Java (2 years), Python (1 year), SQL (1 year)
Systems: Linux, Windows
Cybersecurity Tools: Wireshark, HYDRA, Windows Server Management
Security Concepts: SHA-512 hashing, packet analysis, incident response, network monitoring

TECHNICAL EXPERIENCES AND EDUCATIONS

AI Recommender Tool | VCU x Capital One Capstone Project **August 2024 – April 2026**

VCU College of Engineering • Sponsored by Capital One

- Lead development of an AI-driven risk assessment web application using Java, TypeScript, PyTorch, and Docker.
- Built functionality to calculate risk scores, classify threats, and generate mitigation recommendations aligned with GRC standards.
- Collaborate with a inter-disciplinary development team to design and implement scalable application features.

Cybersecurity & IT Lab Experience **Fall 2025 – Spring 2026**

- Configured Linux systems to implement SHA-512 password hashing through secure system configuration.
- Used Wireshark to identify malicious scripts and investigate dictionary-based brute-force FTP attacks.
- Traced suspicious login attempts to a single IP address and documented findings in formal security reports.

QUALIFICATIONS AND EMPLOYMENT

Shift Manager | Chipotle Mexican Grill **July 2025 – Present**

- Analyze sales and operational data to support customer service and business performance goals.
- Supervise daily restaurant operations and coordinate team workflow in a fast-paced environment.
- Manage employee scheduling, inventory tracking, and operational problem-solving to improve efficiency.
